### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. This application is in condition for allowance except for the presence of claim 11 to an invention non-elected without traverse. Accordingly, claim 11 has been cancelled.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:
  - b. Applicant has argued that cleaving is a different method than lapping or dicing, and that the former has various processing advantages. Assuming *arguendo* that these terms denote different methods, Applicant still has not adequately explained why the different methods necessarily result in a structural difference, as is required by the product-by-process doctrine. Accordingly, the arguments are not persuasive.
  - c. Nonetheless, upon further reconsideration, the Examiner is persuaded that the prior-art of record does not reasonably teach or suggest such a photodetector as claimed wherein the semiconductor substrate has a second side face that is formed parallel to the first inclined side face.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
